

COMPANY PROFILE

REG NO: 2025/939123/07

Your Partner in Electrical, Mechanical &
Sustainable Energy Solutions.

About Us

Archonelec (Pty) Ltd is a multidisciplinary services company providing reliable, efficient, and compliant engineering solutions across electrical, mechanical, plumbing, HVAC, and solar systems. We serve residential, commercial, and industrial clients with a strong focus on safety, quality workmanship, and long-term value.

Our integrated approach allows clients to work with a single, trusted service provider for multiple technical disciplines. From new installations to maintenance, upgrades, and repairs, Archonelec delivers solutions that are practical, energy-efficient, and aligned with South African standards.

Our Vision

To be a trusted leader in integrated engineering and energy solutions, recognised for technical excellence, reliability, and innovation.

Our Mission

To provide high-quality electrical, mechanical, plumbing, HVAC, and solar services that meet client needs, comply with industry standards, and contribute to sustainable development.

Our Core Values

Safety First: We prioritise the safety of our employees, clients, and communities.

Quality Workmanship: We deliver durable, compliant, and professional results.

Integrity: Honest communication and ethical business practices.

Customer Focus: Tailored solutions and dependable service delivery.

Sustainability: Promoting energy-efficient and environmentally responsible systems.

Our Services

Electrical Services

Archonelec provides comprehensive electrical solutions for residential, commercial, and industrial environments.

Our Electrical Services Include:

- Electrical installations (new builds and renovations)
- Electrical maintenance and fault finding
- Distribution boards and wiring
- Lighting systems (indoor, outdoor, and industrial)
- Power supply upgrades
- Compliance inspections and Certificates of Compliance (CoC)
- Generator connections and backup power systems

All electrical work is carried out in accordance with South African electrical regulations and safety standards.

Mechanical Services

Our mechanical services are designed to support the efficient operation of building systems and equipment.

Mechanical Solutions Include:

- Mechanical installations and maintenance
- Equipment servicing and repairs
- Industrial and commercial mechanical support
- Preventative maintenance programmes

Plumbing Services

We offer reliable plumbing solutions for residential, commercial, and industrial clients.

Plumbing Services Include:

- New plumbing installations
- Repairs and maintenance
- Water supply and drainage systems
- Leak detection and repairs
- Geyser installation and maintenance
- Sanitary and water-efficient solutions

HVAC Services

Archonelec delivers professional Heating, Ventilation, and Air Conditioning (HVAC) solutions that improve comfort, air quality, and energy efficiency.

HVAC Services Include:

- Air conditioning installations
- HVAC system maintenance and servicing
- Repairs and troubleshooting
- Ventilation system installation
- Energy-efficient climate control solutions

Solar Systems & Renewable Energy

In response to rising energy costs and power reliability challenges, Archonelec offers solar energy solutions tailored to client requirements.

Solar Services Include:

- Solar system design and consultation
- Solar panel installations
- Inverter and battery systems
- Hybrid and off-grid solutions
- System upgrades and maintenance

Health, Safety & Quality Assurance

Archonelec is committed to maintaining high standards of health, safety, and quality across all projects.

Our Commitment

- Compliance with applicable South African regulations and standards
- Use of quality-approved materials and equipment
- Skilled and trained personnel
- Safe work practices on all sites
- Quality checks and testing before project handover

We believe that consistent quality and strict safety standards are essential to long-term client satisfaction and operational excellence.

Contact us

Get in touch with Archonelec (Pty) Ltd for reliable electrical, mechanical, plumbing, HVAC, and solar solutions. Our team is ready to assist with enquiries, quotations, and project support. We look forward to working with you.
